DO A MAN'S WORK

DR. ZENTZ SAYS TIME HAS COME FOR MEN TO ACT.

MANY AT THE BANQUET

Signatures Secured for the Drganization of a Brotherhood Following Feast at M. E. Church.

A great success was the men's banquet at the First Methodist church Thursday night, both in point of attendance and in the enthusiasm of those present. At the conclusion of the banquet a number signed the enrollment list for membership in a Methodist brotherhood, the organization of which is to be completed next Friday night. Five long tables were nearly filled when Dr. Christy delivered the invocation before the banqueters commenced the pleasing task of demolishing the elaborate three-course dinner prepared by the ladies of the church.

Rev. S. D. Harkness, in addressing the banqueters, told of the men's movements in the different churches, and said the men had reached the point where they were determined no longer to keep the title of their religion in their wives' names. He advised them to keep out of a rut in the formation of any organization, and said that if the purpose was merely to add another to the list of societies within the church without bringing those members who are not active in church work into active service, they would be making a mistake.

Dr. Zents of St. Joseph told of the necessity of men engaged in the work for God and humanity being possessed of a profound conviction on the subject. He said that during the last quadrennium statistics in the church showed that the work of evangelizing the world had been practically at a standstill. He illustrated his point by saying that you could not expect a warm life-like church with an icicle in the pulpit, but that neither could you put a pastor in a refrigerator and expect him to work up a sweat. He said that the church's greatest loss, as well as its greatest asset, was in the thousands and tens of thousands of unused men of capacity within its ranks. It was the purpose of the men's movement to put these men to work. He said that the women had carried on the work of the church well and nobly, but that the work of the church was essentially a man's work, and that the time had come for men to do the work in a man's way. He is a convincing, polished speaker, and his talk made a great impression on his audience.

C. C. Corwin acted as toastmaster and made one or two little talks in which he told of the help a man's organization such as was proposed could give the church. Rev. Cox outlined the proposed organization and the signing of the membership roll followed the various talks.

A proposal made by Rev. Harkness that the men of the Presbyterian church would collaborate in the taking of a religious census of the town may be taken up by the brotherhood at a later period.

REVIVAL SERVICES AT SKIDMORE

Rev. Randolph is Conducting One There at the Southern Methodist Church.

Rev. J. D. Randolph of the Southern Methodist church of Maryville is assisting Rev. J. F. Patton, the pastor of the church at Skidmore, in the revival services at that place. The Skidmore New Era this week says:

Rev. Randolph is preaching some very strong and effective sermons to fairly good congregations. The crowds Sunday morning and evening were especially large. The church was filled to its capacity.

Rev. Randolph took for the subject of his discourse Sunday morning "The Backslider," and preached from the text, "To whom shall we go, thou hast the words of eternal life?" The evening subject was "The Value of a Man." Text, "How much then is a man better than a sheep?"—Mat. 12:12.

All of the above parties are heirs of the estate of Jess L. Crain, who died in his store in Burlington Junction, in August, 1911. Normals Remain Undefeated, Although Pirates Gave Them a Scare—High School Also Won.

Standing of the Teams.

	Won.	Lost.	Pr.ct.
Normal	7	0	1.000
High school	4	3	.568
Pirates	3	4	.428
Business college	0	7	.000

That one thousand percentage of the Normal basket ball team in the city tournament came near taking a tumble Thursday afternoon when the teachers lined up against the chesty Pirates. The buccaneers have been putting in some stiff practice since their defeat by the high school five last week, and their work last evening showed a vast improvement. They led the teachers throughout the first half and finished ahead in that period 20 to 18. But in the final round the Normals overcame their opponents' lead and barely won the game by a 38-34 count.

The team work of Hoffman and Eek and the latter's goal throwing was the main strength of the Pirates, while Captain Vandersloot's goal throwing from the field and Perrin's 12 out of 14 from the foul line featured for Coach Moore's men.

In the second game of the afternoon Coach Westbrook of the high school sent his second team against the Business college five, and after holding them even the first half, he sent in the regulars in the second period and won easily 23 to 7.

Following are the line-ups and summary of both games:

Normal—Forwards, Daise, Lamar and Vandersloot; Perrin, center; Quinn, McClintoch and Woodward, guards.

Pirates—Eek and Wray, forwards; Hoffman, center; Moore and Carpenter, guards.

Summary—Field goals, Vandersloot 6, Eek 5, Hoffman 4, Perrin 4, Wray 2, Lamar, Daise, Moore, Carpenter.

Free throws, Perrin, 12 out of 14; Eek, 8 out of 12; Vandersloot, 1 out of 3.

High school—Taylor, Leech, Murry and Strader, forwards; Thompson, center; Scott, Blagg and David, guards.

Business college—Castillo, Leech and Carter, forwards; Brown, center; Rhodes and Bailey, guards.

Summary—Field goals, Thompson 4, Strader, Scott, David, Taylor, Leech, Carter.

Free throws—Leech 4, Strader, Castillo, 4 out of 13.

WAS NOT MYSTERY

DEATH OF P. L. MURRIN FROM NATURAL CAUSES.

LETTERS GIVE 2 CAUSES

Spinal Meningitis and Pneumonia Assigned as Diseases From Which Death Resulted.

The mystery that seemed to surround the death of P. L. Murrin, formerly of Maryville, whose death occurred last week in Bogota, Texas., has been cleared away by the receipt of two letters by Mrs. John Murrin Thursday and Friday morning.

Both letters were written to Mr. Murrin, who left Monday for Texas, on receiving word that his brother was dead and that the body had been buried because it was in no condition to ship. Mr. Murrin went at once to look into the cause of his brother's death. The letter that came Thursday was written after Mr. Murrin had started for Texas, as was also the letter received Friday morning. The first letter stated that death was caused by spinal meningitis, and the second letter, written by the man at whose home Mr. Murrin's death occurred, said his death was due to pneumonia.

John Murrin is expected to return home about Sunday night, and until then relatives here will not know the real cause of death.

MANY RARE COINS HERE.

E. T. Duval of Skidmore Has a Collection of Them, One Bearing Date of 1740.

There seems to be many rare coins in this county. According to the Skidmore New Era E. T. Duval of that place has a collection of several dollars of various denominations and dates. Coins of the realm of Uncle Sam, Spain and Mexico and a "roll" of old state bank money, not confederate scrip, but the "wild cat" variety that was in circulation long before the war.

In his collection of coins are four silver dollars, of the first silver issue of the Bland-Allison act, the American dollar with eight feathers in the eagle's tail, some other old United States pieces, and various coins of Spanish issue. One in particular that dates 1740.

One of the bills which we noticed in particular was of the old state bank scrip and issued in 1814 by the Owl Creek bank of Mount Vernon, O. It passed as legal currency in its day, and was in fact as good as the bank that issued it, but no better. It very little resembles our money of today. The quality of paper, design of die, ink and everything about it is much inferior to the national bank notes and gold and silver certificates now issued by the United States government.

The oldest date of any of Mr. Duval's collection is 1740, 173 years ago.

Horse Won $19,880.

In the Thoroughbred Record, published at Lexington, Ky., on January 18, is a cut of Ben Jones' horse Harrigan, says the Parnell Sentinel. The photograph was taken in front of Horace Jones' large residence with Fred Breit holding the horse and Mr. Jones on the porch. This horse has been the winner of $19,880. When 3 years old he made a record of a mile in 1.35 2-5.

Are Needing Rain.

"Russ" Bilby of Quitman, who is down on one of his periodical buying trips, states that in a good many places in that part of the state, good stalk fields will go untouched unless rain comes, says the Kansas City Drovers Telegram. Cattle owners are compelled to move their stock where water can be had, and in many cases the stalk fields are too far from water.

WILL PLAY BENTON.

Normal Five Journey to St. Joseph After More Scalps—Will Also Take on Cameron.

The State Normal basket ball team left for St. Joseph this evening, where they will play the Benton high school team tonight in South St. Joseph. On Saturday they journey on to Cameron, where they will play the Missouri Wesleyan college team on Saturday night. The locals are greatly weakened by the loss of their stellar guard, Vern Seymour, who was unable to accompany them on account of school duties. Coach Moore is quite confident of capturing the Friday night contest, but the Wesleyans are a rather uncertain quantity, and visiting teams are always at a great disadvantage on account of the poor court.

Those who made the trip were Coach V. I. Moore, Captain Fred Vandersloot, Perrin, Daise, McClintoch, Taylor and Woodward.

Plans for a banquet are being made to be given in the basement of the Southern Methodist church flats at 7 o'clock, on the evening of February 6. The arrangements are in charge of the fellowship committee of that church.

WILL VOTE ON IT

INCORPORATION UP TO TELEPHONE USERS SATURDAY.

DIRECTORS FAVOR IT

Say It Will Put It On Natural Cost Basis, and That There Is No Danger of Consolidation.

The Mutual telephone meeting will be held in Maryville on Saturday, February 15, at 1:30 o'clock at the court house, when the proposition of incorporation will be voted on by the members. The board of directors of the Mutual are strongly in favor of incorporation and urge that a representative from each county line be in attendance.

There seems to be several errors in regard to the proposition of incorporation and many of the directors think they should be corrected.

If the Mutual should incorporate it will not be run by a clique of men, but a stockholders' meeting will be held annually in which each phone holder may have a voice and a vote.

Incorporation will put the Mutual on a natural cost basis, and there is no possibility or prabability of a union with the Hanamo or any other company which is run for profit.

The cost will be no greater than the present system, and more money will be expended for the up-keep of the company, which will be saved by the incorporation.

The incorporation of the Mutual is the only solution by which the company can give better service.

The Dredge Boat on the Nodaway River is Just That Far From the End of the Contract.

Mr. Russell Bilby of Quitman, upon whom depends the decision in the matter of further work, is in Kansas City on business and upon his return it is expected the matter will be settled one way or the other

The drainage ditch is from Braddyville, Ia., to Quitman.

Why You Should Not Worry.

The following very wise advice is taken from the February American Magazine:

"The worries of today are the jokes of tomorrow. Look over your past life. What are the incidents that you find funny now? Every one of them was a worry at the time it happened. You laugh as you look back at past worries. Well, why not laugh at the worries of today and tomorrow as well?

"Worry doesn't get you anything or anywhere. There's no use worrying about things that are past. Whatever has happened is right or it would not have happened. The whole great universe is run in harmony. Don't be conceited enough to suppose that anything you have done is out of harmony with the universe. If it was, the whole world would soon get out of kilter.

"There's no use worying, either, about what's going to happen. Nobody knows that. Remember, too, the worst never happens. And why worry now? You either can help or can't help what you are worrying about. If you can help it, go ahead and do it and stop worrying. If you can't help it, what good does worrying do?

"'But,' you say, 'I just can't help worrying.' How absurd! Of course you can. Try this plan. Sit down calmly and ask yourself what is the very worst result that can come from your present trouble. Look it in the face boldly. Square your shoulders and say to yourself: 'Well, if that's all, I can face that. Lots of worse things have happened to millions of other people and they have survived. I guess I can.'

"Most worries are over mere trifles. Probably George Washington's wife used to worry when he got home late for dinner, but what difference does it make to either of them now?

"Get a worry book. Put down in it today everything that worries you. Look at it a week from today. How many of the things you are worrying about will happen? The longer you keep a worry book the shorter will grow the entries."

TRAFFIC IN STOLEN STAMPS

Indictments Returned Against Brokers in Several Cities.

Washington, Jan. 24.—Enormous frauds against the government through the illegal trafficking in stolen postage stamps have been discovered by post office inspectors.

Reports received by Postmaster General Hitchcock show that the frauds have been conducted on a tremendous scale and that they involve at least $2,000,000 annually.

Indictments already have been returned against stamp brokers in New York, Chicago and other large cities. Confessions received by the inspectors from some of the men they have investigated are said to indicate that the ramifications of the frauds extend throughout the country.

Everyone enjoyed the affair immensely except the brakeman, who complained about the rice, but that's what he's paid for, so no one cared. As the train started to move Mrs. Mutti was presented a handsome pair of infant's shoes tied with white ribbon as a token of esteem from the club.

YEAR BOOK *of*
Stark Bro's Nurseries & Orchards Co.
MAILED TO YOU FREE

Just say on a Postal Card: *"Send me a copy of Stark Year Book for 1913."* When writing, also tell us how many trees, shrubs, vines, etc., you will probably plant this season.

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical easy to understand text book for the guidance of the man who plants trees. Our own experience of nearly 100 years, the reports of experiment stations and the opinions of planters from all sections are condensed and reproduced for the benefit of busy people. An encyclopedia of orchard information, containing full size color illustrations of gloriously tinted fruits and many photographic reproductions in black and white; also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, pears, peach, plum, cherry, apricot, quince, grape and all small fruits are described; weaknesses of each variety are pointed out and good points are explained. We feel that planters should know both.

Those interested in growing fruits or flowers or shrubs or shade trees will find this book of inestimable value; totally different from the average nurseryman's publications. It is a book you will keep for reference, and one on which you can depend as being absolutely accurate. Write today for your copy.

CLEANSE YOUR LIVER AND 30 FEET OF BOWELS WITH "SYRUP OF FIGS"

MORE EFFECTIVE THAN CALOMEL, CASTOR OIL OR SALTS; GENTLY CLEANSES THE STOMACH, LIVER AND BOWELS WITHOUT NAUSEA OR GRIPING—CHILDREN DEARLY LOVE IT.

You know when your liver is bad, when your bowels are sluggish. You feel a certain dullness and depression, perhaps the approach of a headache, your stomach gets sour and full of gas, tongue coated, breath foul, or you have indigestion. You say, "I am bilious or constipated and I must take something tonight."

Most people shrink from a physic—they think of castor oil, calomel, salts or cathartic pills.

It's different with Syrup of Figs. Its effect is as that of fruit; of eating coarse food; of exercise. Take a teaspoonful of delicious Syrup of Figs tonight and you won't realize you have taken anything until morning, when all the clogged up waste matter, sour bile and constipation poisons more on and out of your system, without gripe, nausea or weakness. Nothing else cleanses and regulates your sour, disordered stomach, torpid liver and thirty feet of waste clogged bowels like gentle, effective Syrup of Figs. Don't think you are drugging yourself. Being composed entirely of luscious figs, senna and aromatics, it cannot cause injury.

If your child is cross, sick and feverish, or its little stomach sour, tongue coated, give Syrup of Figs at once. It's really all that is needed to make children well and happy again. They dearly love its pleasant taste.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," and look on the label for the name—California Fig Syrup Company. That, and that only, is the genuine. Refuse any other fig syrup substitute with contempt.—Advertisement.

MILLERS WIN BLEACH TEST

United States Court of Appeals Reverses Lexington Case

ALSOP PROCESS IS UPHELD.

Case Decided by Judge Smith McPherson Is Reversed and Belief Exists This Will Settle Long Contest Over Flour Production.

St. Louis, Jan. 24.—The United States court of appeals reversed the decision of the United States district court in the case of the government against the Lexington Mill and Elevator company of Lexington, Neb., in which the lower court declared that the electrical bleaching process, known as the Alsop process, was a violation of the provisions of the national pure food and drugs act. The appellate court ordered the lower court to retry the case.

The case originally was heard in Kansas City. Judge Smith McPherson charged the jury that if it was found the bleaching process added anything to the flour, whether it was injurious or not, a verdict in favor of the government should be found. The appellate court held that Judge McPherson erred in so charging the jury.

The government suit against the Lexington Mill and Elevator company was in reality a test case in voiding the use of the Alsop process machinery in the mills of the country. John E. Mitchell, president of the Alsop Process company, declared after the court's decision was rendered, that he believed the decree settled the question for all time, and that there would be no other trial of the case.

Question of Impurity.

When the attorneys for the milling company argued the case before the appellate court it was admitted that in the bleaching process a nitrate was formed, but it was proved that a man would have to eat about 15,000 loaves of bread before he would get an ordinary dose of the nitrate, and that even if he did take a dose of it, it would not hurt him. Attorneys for the milling company declared that the Alsop process was so valuable to the millers of the country that if its use was prohibited the people of the country might have to cease eating bread a year to give the wheat and flour an opportunity to become ripened or to bleach by the process.

BLOW AT LOAN SHARKS

Senator Casey's Bill Aims at "Jackrabbit Justice Courts."

Jefferson City, Mo., Jan. 24.—The "jackrabbit" justice courts of Jackson county are sheared of more of their powers in two bills which Senator M. E. Casey of Kansas City introduced in the senate.

The two bills provide that no suit may be brought in a justice court against a person except in the township in which he resides and before justices of the peace who are on a salary and not a fee basis. All the justices of the peace of Kansas City are on a salary. The bills will make it impossible in the future for loan sharks or other persons to bring suits in the "jackrabbit courts" surrounding Kansas City against persons living in the city proper. It also will prevent the attorney for the county collector bringing tax suits before the country justices against persons living in Kansas City.

FOR STATE FORESTRY BOARD

Bill Drafted to Provide for a Conservation Campaign in Missouri.

Kansas City, Jan. 24.—If the plans of the state board of forestry materialize Missouri will take a place in the front rank of those states that have taken steps to conserve their forests, according to W. E. Barns, secretary of the board.

"A bill, which has been drafted by J. A. Ferguson, formerly professor of forestry at the state college of agriculture, will be presented at the present session of the legislature," he said. "It provides for the granting of land for a state forest preserve, the appointment of a state forester, the appointment of a non-partisan board, of which the dean of the college of agriculture and the state geologist shall be members, and the appropriation of sufficient funds to allow the board to carry on a conservation campaign."

Oppose Negro Segregation.

St. Louis, Jan. 24.—A special committee appointed by the St. Louis Civic league to investigate the housing of negroes protested against the proposed ordinance segregating the negroes of St. Louis. A bill to that effect now is pending in the municipal assembly. The committee, composed of five white men and five negroes, held that the proposed law is unworkable and unconstitutional.

Rain Helps the Ozark Wheat Crop.

Springfield, Mo., Jan. 24.—A heavy rain fell throughout the Ozarks, and the wheat is benefited greatly as a result. Thus far this month there has been a precipitation of three inches, which is a quarter of an inch more than the normal rainfall for January here. It is the first time this winter that the precipitation has at all approached the normal.

EIGHT PERISH UNDER WALLS

Shoppers in Department Store Killed When Building Falls.

WILD RUSH MADE TO STREET

Clerk, Held Fast in Wreckage and Tormented by Fire, Begs for Death. Dies Before Firemen Reach Him. Capitalist Among Victims.

McKinney, Tex., Jan. 24.—Eight persons were killed and fifteen hurt here when the walls of a building occupied by a farming implement firm fell and crashed into a department store, causing that building to collapse. Fire broke out in the ruins.

The dead: Rosa Welch, Miss Katie Milligan, Miss Bessie Wade, Russell Height, N. R. Pressley, Mrs. Mary Stiff, Leslie Bush, Miss Eva Searcy.

The building next to the Odd Fellows' building, two stories of which was used by the Cheeves company, was occupied by an implement company. The walls of the implement company gave way first. A sale was on in the three-story department store and men, women and children thronged its counters.

Crowd Rushes to Street.

At the first crackling of timbers, clerks and customers broke for the streets. Pressed outward by the heavy weight of the heavy stock, the wall of the implement store swayed, sagged and burst through into the department store and in an instant hundreds of tons of merchandise and wrecked and shattered building material formed a heap of debris in the department store.

Rescuers at once attacked the ruins. Scarcely had they mounted the heap when flames burst through it. From all over the city came workers and they were formed into relays by Mayor Finch. The fire was extinguished within an hour, but in some cases the flames reached the victims before the rescuers. N. R. Pressley, a clerk, was one of these. He told the firemen that he was waiting on Leslie Bush, an Allen capitalist, when the crash came.

Then Pressley begged, "Kill me or give me a gun so that I can kill myself. I am burning. My right foot is burning off."

A few minutes later when the rescuers reached him Pressley was dead. His right foot was burned to a crisp.

The loss is estimated at $75,000.

RIO GRANDE ISSUES PASSES

Senators Guggenheim and Smoot Given Free Transportation.

Denver, Jan. 24.—In June, 1912, the Denver and Rio Grande railroad issued free transportation to the value of $63,000, or 1C per cent of the total passenger revenue of the road for the month, according to the statement of J. B. Andrews, assistant to the vice president of the railroad company, in his testimony before Interstate Commerce Commissioner James S. Harlan.

The names of various persons who had received free transportation were given by Mr. Andrews. They included Senator Simon Guggenheim of Colorado and Senator Reed Smoot of Utah.

"This investigation will not stop with a report," said Commissioner Harlan, "but prosecutions will follow wherever we find there has been a violation of the law."

FAIR TREATMENT IN CANAL

Secretary of State Makes Reply to British Protest on Free Tolls.

Washington, Jan. 24.—Secretary Knox's reply to the British protest against the exemption of American coastwise shipping from Panama canal tolls assures the British government that domestic coastwise trade will not be permitted to extend operations into foreign competitive fields. The reply also gives assurances that increased tolls will not be laid on foreign shipping to balance the remission to American ships. If Great Britain is not satisfied on these points America proposes a special commission of adjustment.

Wilson to Visit Canal.

Trenton, N. J., Jan. 24.—President elect Wilson intends to visit the Panama canal immediately after the extra session of congress adjourns. He told a delegation from Asheville, N. C., who came to offer him a summer home there, that he was not making plans for next summer, because he hoped to spend a part of it in the canal zone and could not guess at how long congress would be in session.

U. S. Troops Fired On by Mexicans.

El Paso, Tex., Jan. 24.—Telephone reports said that Mexican rebels fired on United States troopers of the Thirteenth cavalry patrolling the border near Fabens, Tex. Raiding of ranches by rebels in the same vicinity resulted in a fight with American ranchmen, who drove the raiders over the line, killing one of them.

Pueblo, Colo., Jan. 24.—Homer Blue Richards, who confessed a few days ago that he is wanted in Oklahoma for complicity in six bank robberies, set fire to the city jail, where he is confined. Richards, it is said, has boasted that he will not be taken from jail alive. Richards was badly burned.

DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

NAZIM PASHA SHOT TO DEATH

Turkish People Force Cabinet to Resign.

SHEFKET PASHA GRAND VIZIER

Announcement of Intention to Surrender Adrianople Causes Great Demonstration Before Sublime Porte at Constantinople.

Constantinople, Jan. 24.—Nazim Pasha, the former war minister and commander of the army, was shot dead in demonstrations which preceded the resignation of the cabinet.

Enver Bey and Talat Bey had given explicit orders that no blood should be shed. But Nazim Pasha's aide-de-camp fired from a window of the porte at Enver Bey and his companion and they returned the fire. Their bullets killed Nazim Pasha himself.

The crisis in Turkish affairs came with dramatic suddenness. The grand vizier, Kiamil Pasha, and the Ottoman cabinet resigned, and Mahmoud Shefket Pasha, formerly minister of war and commander of the constitutional army which enthroned Mehmed V. as sultan, was appointed grand vizier. The grand council had pronounced in favor of peace almost at any price. A vast crowd drawn from all classes declared for war rather than peace without Adrianople. And because the crowd was backed by general public opinion, the government surrendered and relinquished office, making way for the same men whom the popular movement brought to the top after the revolutions of 1908 and 1909.

Talat Bey has been appointed minister of the interior, a position he held in a previous cabinet. In a statement after his appointment, he said:

"The change in the cabinet means that we are going to save the national honor or perish in the attempt. We do not want a continuation of the war, but we are determined to keep Adrianople at all costs. That is an indispensable condition of peace."

The resignation of the Turkish cabinet was announced in the following official statement: "The decision of Kiamil Pasha's cabinet, taken in response to the note handed to the Turkish government by the European powers, asking them to abandon the fortress of Adrianople and parts of the islands in the Aegean sea and the convocation of an extraordinary assembly of the grand council of the Ottoman empire, to which the cabinet's decision was submitted—a court contrary to the proscriptions of the constitutional charter and violating the sacred rights of the people, roused the indignation of the Turkish nation with the result that the people made a demonstration before the sublime porte and brought about the resignation of the government."

CASTRO IN A RAGE

Venezuelan Orders Officials From His Room at Ellis Island.

New York, Jan. 24.—General Cipriano Castro, enraged at the refusal of the special board of inquiry at Ellis island to permit him to enter the country, ordered the three members of the board from his rooms. When they demurred he called his valet and tried to throw them out. They withdrew.

"I will not talk to you! Away!" he shouted, when the officials sought to question him further concerning the killing of General Paradez in Venezuela. The board, its two interpreters and its stenographer, all taking at once, tried to calm the Venezuelan but without avail. He summoned his valet and reached for his gold-headed cane. When the officials withdrew Castro banged the door shut and locked it. The appeal from the board's decision against Castro is now pending in Washington.

Shipping Trust Fixes Rates.

Washington, Jan. 24.—P. A. S. Franklin, vice president of the International Mercantile Marine, told the house shipping trust committee that practically all lines to Europe from American ports, from Portland to Galveston, operated under the North Atlantic conference, which agreed upon minimum rates and conditions of service. His corporation, Mr. Franklin testified, controlled more than 1,000,000 tons of ocean ships and operated ships in trade under foreign flags all over the world.

Celebrated Indian Fighter Dies.

San Bernardino, Cal., Jan. 24.—Stewart Wall, who fought a battle almost single-handed against Apache Indians in 1866 and killed thirty braves before he fell with fourteen bullets in his own body, died here. WORLD'S ARMOR POOL IS DESCRIBED

Corey Admits Steel Trust Agreed With Foreign Concerns.

New York, Jan. 24.—The United States Steel corporation and the Bethlehem Steel company participated for four years in an international pool in armor plate, which divided up the business of "neutral markets." William E. Corey, former president of the steel corporation, so testified at the hearings in the government's suit to dissolve the corporation under the Sherman anti-trust law. It was the first direct testimony which the government has been able to obtain as to the existence of such a pool.

Mr. Corey, who resigned as president of the steel corporation in 1910, was unable to recall that the armor plate pool had existed until his memory had been refreshed by the reading of minutes of the Carnegie Steel company quoting him as advising against joining with the "armor combination" in the erection of an armor plate plant in Japan. This was in 1902, shortly after the organization of the steel corporation.

The witness then testified that a combination of armor plate manufacturers in England, France and Germany and the United States had existed as late as "1904 or 1905."

The Carnegie Steel company and the Bethlehem Steel company were the American members of the combination, he said.

The witness testified that during the existence of the agreement the American members had not, to his knowledge, attempted to compete for armor plate either in England, France or Germany.

BROOKLYN TABERNACLE BIBLE STUDY ON THE MARK OF CAIN

Genesis 4:1-15—Jan. 26.

"Whosoever hateth his brother is a murderer." —1 John 3:15.

THE first tragedy of Earth was disobedience to God—the eating of the forbidden fruit. The next generation saw murder resulting from jealousy. Since the Bible teaches that our first parents were perfect, the image of their Creator, the question arises, How could such noble parentage bring forth a son of Cain's evil disposition?

Cain was not degenerate in the present acceptance of that word. Undoubtedly he was a great man in many ways. But he was birth-marked, as all are, with self-ishness. After his parents were expelled from Eden, after they began to toil with sweat of face, Cain was born. The period of his gestation was surely one of much mental distress to his mother. As she murmured respecting the loss of Eden, she marked her child with discontent and selfishness. By the time Abel was born, doubtless our first parents had become reconciled to their fate.

Sacrifices of Abel and Cain.

We are in this not justifying murder, but taking a sympathetic view of the murderer's case, as God did. He condemned the sinner, and arranged for his punishment; but none of His messages to the murderer indicated hatred.

So parents, correcting their children, should allow no sentiment to control their hearts contrary to the best interests of their children. So the laws of men in dealing with crime should be as severe as seems necessary in the interests of society, but should serve be vengeful. They should recognize that mankind were born in sin. The vengeance of the law should be sympathetically enforced, to warn others against evil-doing.

With great satisfaction we note that our prisons are being turned into reformatories. Judges in pronouncing sentence, especially against murderers, are often fatherly and tender. The feeling that terrible responsibility is associated with the taking of human life, even judicially, is right. A certain weakness, however, manifests itself in opposition to capital punishment. This, we believe, results from misunderstanding the Divine Word.

In the case of Cain, God especially prohibited the execution of the criminal. Nevertheless, the Divine Law stands: "Whoso sheddeth man's blood, by man shall his blood be shed." The careful observance of this Law, with a spirit of kindness and sympathy, but with proper ignominy, seems necessary to the preservation of order. Weakness in this respect encourages criminality, and furnishes an excuse for mob law and violence.

General misapprehension of the Divine Plan has led up to the weakness which opposes capital punishment. This wrong view led us to believe that the murderer passed at death into endless torture, and we hesitated to plunge a fellow-creature into such misery. Bible students are now learning that this delusion came from the Dark Ages. Our forefathers, imagining God to be worse than themselves, twisted Scripture to support their errors.

The Bible teaches that mankind fall asleep at death, to awake after Messiah establishes His Kingdom. The Bible statement is that all, good and bad, go to one great slumber-house, the tomb—Sheol, Hades. Messiah so loved the world that He gave His life for the redemption of mankind. As soon as He shall have selected His Church, He will establish His glorious Kingdom, open the prison doors, set at liberty the captives of death, and bring all to an accurate knowledge of the Truth.

"Sin Croucheth at the Door."

Cain was jealous because God manifested favor toward Abel's offering, while rejecting his own. Cain should have rejoiced with a similar offering. God warned him that his spirit of selfishness was sin, crouching at the door of his heart, and advised him to conquer this beastly spirit. Cain heeded not the warning.

Murder through jealousy.

Abel's blood cried, figuratively, to Divine Justice. All injustice cries out to God. Sooner or later, the Divine penalty will be meted out. But the judgments of the Lord are left for the Great Mediator to execute during the Millennium, the world's Judgment Day. Only those begotten of the Holy Spirit are now on trial for life or death eternal.

Brother-Haters Are Murderers.

The Great Teacher declares that brother-haters are murderers in God's sight. In other words, a spirit of hatred is a spirit of murder. Alas, how many of the professed followers of Jesus harbor a spirit of hatred, and sometimes manifest it in anger and other works of the flesh and the devil!

Christians are to fight against the imperfections of the flesh. They must strive against the fallen nature, and cultivate the fruits and graces of the Holy Spirit. If they manifest the murder spirit, they will lose the "prize" of joint-heirship with Christ.

HUNDRED YEAR CLUB

Believe Life May Be Prolonged.

Men who are devoting their lives to the study of longevity believe that in days to come a man of ninety will be in his prime, and old age will begin long past a hundred years.

Scientists have proved that the simple life, temperate habits, exercise, and an active mind are essential to a long and happy life.

When the blood gets thin and sluggish and creeps lazily through the veins, and the arteries begin to harden, there is nothing that will enrich the blood, improve the circulation and restore strength in the body so quickly as our delicious cod liver and iron tonic Vinol. Here is proof.

Mrs. Michael Bloom of Lewiston, Pa., at 83 years of age, was so weak she had to be wheeled around in an invalid's chair—she writes that after taking a few bottle of Vinol she could take long walks and do her housework. That shows how Vinol strengthens old people.

Try Vinol on our guarantee that it will do you good or cost you nothing. Orear-Henry Drug Co., Maryville, Mo. —Advertisement.

DO A MAN'S WORK

DR. ZENTZ SAYS TIME HAS COME FOR MEN TO ACT.

MANY AT THE BANQUET

Signatures Secured for the Drganization of a Brotherhood Following Feast at M. E. Church.

A great success was the men's banquet at the First Methodist church Thursday night, both in point of attendance and in the enthusiasm of those present. At the conclusion of the banquet a number signed the enrollment list for membership in a Methodist brotherhood, the organization of which is to be completed next Friday night. Five long tables were nearly filled when Dr. Christy delivered the invocation before the banqueters commenced the pleasing task of demolishing the elaborate three-course dinner prepared by the ladies of the church.

Rev. S. D. Harkness, in addressing the banqueters, told of the men's movements in the different churches, and said the men had reached the point where they were determined no longer to keep the title of their religion in their wives' names. He advised them to keep out of a rut in the formation of any organization, and said that if the purpose was merely to add another to the list of societies within the church without bringing those members who are not active in church work into active service, they would be making a mistake.

Dr. Zents of St. Joseph told of the necessity of men engaged in the work for God and humanity being possessed of a profound conviction on the subject. He said that during the last quadrennium statistics in the church showed that the work of evangelizing the world had been practically at a standstill. He illustrated his point by saying that you could not expect a warm life-like church with an icicle in the pulpit, but that neither could you put a pastor in a refrigerator and expect him to work up a sweat. He said that the church's greatest loss, as well as its greatest asset, was in the thousands and tens of thousands of unused men of capacity within its ranks. It was the purpose of the men's movement to put these men to work. He said that the women had carried on the work of the church well and nobly, but that the work of the church was essentially a man's work, and that the time had come for men to do the work in a man's way. He is a convincing, polished speaker, and his talk made a great impression on his audience.

C. C. Corwin acted as toastmaster and made one or two little talks in which he told of the help a man's organization such as was proposed could give the church. Rev. Cox outlined the proposed organization and the signing of the membership roll followed the various talks.

A proposal made by Rev. Harkness that the men of the Presbyterian church would collaborate in the taking of a religious census of the town may be taken up by the brotherhood at a later period.

REVIVAL SERVICES AT SKIDMORE

Rev. Randolph is Conducting One There at the Southern Methodist Church.

Rev. J. D. Randolph of the Southern Methodist church of Maryville is assisting Rev. J. F. Patton, the pastor of the church at Skidmore, in the revival services at that place. The Skidmore New Era this week says:

Rev. Randolph is preaching some very strong and effective sermons to fairly good congregations. The crowds Sunday morning and evening were especially large. The church was filled to its capacity.

Rev. Randolph took for the subject of his discourse Sunday morning "The Backslider," and preached from the text, "To whom shall we go, thou hast the words of eternal life?" The evening subject was "The Value of a Man." Text, "How much then is a man better than a sheep?"—Mat. 12:12.

The report of the St. Joseph hospital for the insane for the last biennial period has been sent out, and shows that that institution is in good condition and that many improvements were made during the past two years.

Nodaway county has in the institution thirteen county patients and seven private patients.

Normals Remain Undefeated, Although Pirates Gave Them a Scare—High School Also Won.

Standing of the Teams.

Normal	7	0	1.000
High school	4	3	.568
Pirates	3	4	.428
Business college	0	7	.000

That one thousand percentage of the Normal basket ball team in the city tournament came near taking a tumble Thursday afternoon when the teachers lined up against the chesty Pirates. The buccaneers have been putting in some stiff practice since their defeat by the high school five last week, and their work last evening showed a vast improvement. They led the teachers throughout the first half and finished ahead in that period 20 to 18. But in the final round the Normals overcame their opponents' lead and barely won the game by a 38-34 count.

The team work of Hoffman and Eek and the latter's goal throwing was the main strength of the Pirates, while Captain Vandersloot's goal throwing from the field and Perrin's 12 out of 14 from the foul line featured for Coach Moore's men.

In the second game of the afternoon Coach Westbrook of the high school sent his second team against the Business college five, and after holding them even the first half, he sent in the regulars in the second period and won easily 23 to 7.

Following are the line-ups and summary of both games:

Normal—Forwards, Daise, Lamar and Vandersloot; Perrin, center; Quinn, McClintoch and Woodward, guards.

Pirates—Eek and Wray, forwards; Hoffman, center; Moore and Carpenter, guards.

Summary—Field goals, Vandersloot 6, Eek 5, Hoffman 4, Perrin 4, Wray 2, Lamar, Daise, Moore, Carpenter.

Free throws, Perrin, 12 out of 14; Eek, 8 out of 12; Vandersloot, 1 out of 3.

High school—Taylor, Leech, Murry and Strader, forwards; Thompson, center; Scott, Blagg and David, guards.

Business college—Castillo, Leech and Carter, forwards; Brown, center; Rhodes and Bailey, guards.

Summary—Field goals, Thompson 4, Strader, Scott, David, Taylor, Leech, Carter.

Free throws—Leech 4, Strader, Castillo, 4 out of 13.

DEATH OF P. L. MURRIN FROM NATURAL CAUSES.

LETTERS GIVE 2 CAUSES

Spinal Meningitis and Pneumonia Assigned as Diseases From Which Death Resulted.

The mystery that seemed to surround the death of P. L. Murrin, formerly of Maryville, whose death occurred last week in Bogota, Texas., has been cleared away by the receipt of two letters by Mrs. John Murrin Thursday and Friday morning.

Both letters were written to Mr. Murrin, who left Monday for Texas, on receiving word that his brother was dead and that the body had been buried because it was in no condition to ship. Mr. Murrin went at once to look into the cause of his brother's death. The letter that came Thursday was written after Mr. Murrin had started for Texas, as was also the letter received Friday morning. The first letter stated that death was caused by spinal meningitis, and the second letter, written by the man at whose home Mr. Murrin's death occurred, said his death was due to pneumonia.

John Murrin is expected to return home about Sunday night, and until then relatives here will not know the real cause of death.

MANY RARE COINS HERE.

E. T. Duval of Skidmore Has a Collection of Them, One Bearing Date of 1740.

There seems to be many rare coins in this county. According to the Skidmore New Era E. T. Duval of that place has a collection of several dollars of various denominations and dates. Coins of the realm of Uncle Sam, Spain and Mexico and a "roll" of old state bank money, not confederate scrip, but the "wild cat" variety that was in circulation long before the war.

In his collection of coins are four silver dollars, of the first silver issue of the Bland-Allison act, the American dollar with eight feathers in the eagle's tail, some other old United States pieces, and various coins of Spanish issue. One in particular that dates 1740.

One of the bills which we noticed in particular was of the old state bank scrip and issued in 1814 by the Owl Creek bank of Mount Vernon, O. It passed as legal currency in its day, and was in fact as good as the bank that issued it, but no better. It very little resembles our money of today. The quality of paper, design of die, ink and everything about it is much inferior to the national bank notes and gold and silver certificates now issued by the United States government.

The oldest date of any of Mr. Duval's collection is 1740, 173 years ago.

Horse Won $19,880.

In the Thoroughbred Record, published at Lexington, Ky., on January 18, is a cut of Ben Jones' horse Harrigan, says the Parnell Sentinel. The photograph was taken in front of Horace Jones' large residence with Fred Breit holding the horse and Mr. Jones on the porch. This horse has been the winner of $19,880. When 3 years old he made a record of a mile in 1.35 2-5.

Normal Five Journey to St. Joseph After More Scalps—Will Also Take on Cameron.

The State Normal basket ball team left for St. Joseph this evening, where they will play the Benton high school team tonight in South St. Joseph. On Saturday they journey on to Cameron, where they will play the Missouri Wesleyan college team on Saturday night. The locals are greatly weakened by the loss of their stellar guard, Vern Seymour, who was unable to accompany them on account of school duties. Coach Moore is quite confident of capturing the Friday night contest, but the Wesleyans are a rather uncertain quantity, and visiting teams are always at a great disadvantage on account of the poor court.

Those who made the trip were Coach V. I. Moore, Captain Fred Vandersloot, Perrin, Daise, McClintoch, Taylor and Woodward.

DEATH NEAR SKIDMORE.

Charles L. Phipps Died at His Home at the Age of 82—Funeral Saturday Morning at Home.

C. L. Phipps, a brother of Logan Phipps of this city, died at his home, near Skidmore, Thursday night, from general debility. He would have been 82 years of age the 19th day of the coming February. He was the oldest of the children of his father's family, and his brother, Logan Phipps of this city, was the youngest, and is now the only surviving member of the family.

The funeral services will be held Saturday morning at 11 o'clock at the family home and burial will take place in the Odd Fellows' cemetery at Skidmore. Mr. Phipps is survived by four children—Lawrence Phipps of Wichita, Kan.; Owen Phipps of Preston, Mont.; Mrs. Margaret Mann of Mound City and Miss Millie Phipps at home.

WILL VOTE ON IT

INCORPORATION UP TO TELEPHONE USERS SATURDAY.

DIRECTORS FAVOR IT

Say It Will Put It On Natural Cost Basis, and That There Is No Danger of Consolidation.

The Mutual telephone meeting will be held in Maryville on Saturday, February 15, at 1:30 o'clock at the court house, when the proposition of incorporation will be voted on by the members. The board of directors of the Mutual are strongly in favor of incorporation and urge that a representative from each county line be in attendance.

There seems to be several errors in regard to the proposition of incorporation and many of the directors think they should be corrected.

If the Mutual should incorporate it will not be run by a clique of men, but a stockholders' meeting will be held annually in which each phone holder may have a voice and a vote.

Incorporation will put the Mutual on a natural cost basis, and there is no possibility or prabability of a union with the Hanamo or any other company which is run for profit.

The cost will be no greater than the present system, and more money will be expended for the up-keep of the company, which will be saved by the incorporation.

The incorporation of the Mutual is the only solution by which the company can give better service.

Why You Should Not Worry.

The following very wise advice is taken from the February American Magazine:

"The worries of today are the jokes of tomorrow. Look over your past life. What are the incidents that you find funny now? Every one of them was a worry at the time it happened. You laugh as you look back at past worries. Well, why not laugh at the worries of today and tomorrow as well?

"Worry doesn't get you anything or anywhere. There's no use worrying about things that are past. Whatever has happened is right or it would not have happened. The whole great universe is run in harmony. Don't be conceited enough to suppose that anything you have done is out of harmony with the universe. If it was, the whole world would soon get out of kilter.

"There's no use worying, either, about what's going to happen. Nobody knows that. Remember, too, the worst never happens. And why worry now? You either can help or can't help what you are worrying about. If you can help it, go ahead and do it and stop worrying. If you can't help it, what good does worrying do?

"'But,' you say, 'I just can't help worrying.' How absurd! Of course you can. Try this plan. Sit down calmly and ask yourself what is the very worst result that can come from your present trouble. Look it in the face boldly. Square your shoulders and say to yourself: 'Well, if that's all, I can face that. Lots of worse things have happened to millions of other people and they have survived. I guess I can.'

"Most worries are over mere trifles. Probably George Washington's wife used to worry when he got home late for dinner, but what difference does it make to either of them now?

"Get a worry book. Put down in it today everything that worries you. Look at it a week from today. How many of the things you are worrying about will happen? The longer you keep a worry book the shorter will grow the entries."

TRAFFIC IN STOLEN STAMPS

Indictments Returned Against Brokers in Several Cities.

Washington, Jan. 24.—Enormous frauds against the government through the illegal trafficking in stolen postage stamps have been discovered by post office inspectors.

Reports received by Postmaster General Hitchcock show that the frauds have been conducted on a tremendous scale and that they involve at least $2,000,000 annually.

Indictments already have been returned against stamp brokers in New York, Chicago and other large cities. Confessions received by the inspectors from some of the men they have investigated are said to indicate that the ramifications of the frauds extend throughout the country.

Everyone enjoyed the affair immensely except the brakeman, who complained about the rice, but that's what he's paid for, so no one cared. CLEANSE YOUR LIVER AND 30 FEET OF BOWELS WITH "SYRUP OF FIGS"

MORE EFFECTIVE THAN CALOMEL, CASTOR OIL OR SALTS; GENTLY CLEANSES THE STOMACH, LIVER AND BOWELS WITHOUT NAUSEA OR GRIPING—CHILDREN DEARLY LOVE IT.

You know when your liver is bad, when your bowels are sluggish. You feel a certain dullness and depression, perhaps the approach of a headache, your stomach gets sour and full of gas, tongue coated, breath foul, or you have indigestion. You say, "I am bilious or constipated and I must take something tonight."

Most people shrink from a physic—they think of castor oil, calomel, salts or cathartic pills.

It's different with Syrup of Figs. Its effect is as that of fruit; of eating coarse food; of exercise. Take a teaspoonful of delicious Syrup of Figs tonight and you won't realize you have taken anything until morning, when all the clogged up waste matter, sour bile and constipation poisons more on and out of your system, without gripe, nausea or weakness. Nothing else cleanses and regulates your sour, disordered stomach, torpid liver and thirty feet of waste clogged bowels like gentle, effective Syrup of Figs. Don't think you are drugging yourself. Being composed entirely of luscious figs, senna and aromatics, it cannot cause injury.

If your child is cross, sick and feverish, or its little stomach sour, tongue coated, give Syrup of Figs at once. It's really all that is needed to make children well and happy again. They dearly love its pleasant taste.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," and look on the label for the name—California Fig Syrup Company. That, and that only, is the genuine. Refuse any other fig syrup substitute with contempt.—Advertisement.

MILLERS WIN BLEACH TEST

United States Court of Appeals Reverses Lexington Case

ALSOP PROCESS IS UPHELD.

Case Decided by Judge Smith McPherson Is Reversed and Belief Exists This Will Settle Long Contest Over Flour Production.

St. Louis, Jan. 24.—The United States court of appeals reversed the decision of the United States district court in the case of the government against the Lexington Mill and Elevator company of Lexington, Neb., in which the lower court declared that the electrical bleaching process, known as the Alsop process, was a violation of the provisions of the national pure food and drugs act. The appellate court ordered the lower court to retry the case.

The case originally was heard in Kansas City. Judge Smith McPherson charged the jury that if it was found the bleaching process added anything to the flour, whether it was injurious or not, a verdict in favor of the government should be found. The appellate court held that Judge McPherson erred in so charging the jury.

The government suit against the Lexington Mill and Elevator company was in reality a test case in voiding the use of the Alsop process machinery in the mills of the country. John E. Mitchell, president of the Alsop Process company, declared after the court's decision was rendered, that he believed the decree settled the question for all time, and that there would be no other trial of the case.

Question of Impurity.

When the attorneys for the milling company argued the case before the appellate court it was admitted that in the bleaching process a nitrate was formed, but it was proved that a man would have to eat about 15,000 loaves of bread before he would get an ordinary dose of the nitrate, and that even if he did take a dose of it, it would not hurt him. Attorneys for the milling company declared that the Alsop process was so valuable to the millers of the country that if its use was prohibited the people of the country might have to cease eating bread a year to give the wheat and flour an opportunity to become ripened or to bleach by the process.

BLOW AT LOAN SHARKS

Senator Casey's Bill Aims at "Jackrabbit Justice Courts."

Jefferson City, Mo., Jan. 24.—The "jackrabbit" justice courts of Jackson county are sheared of more of their powers in two bills which Senator M. E. Casey of Kansas City introduced in the senate.

The two bills provide that no suit may be brought in a justice court against a person except in the township in which he resides and before justices of the peace who are on a salary and not a fee basis. All the justices of the peace of Kansas City are on a salary. The bills will make it impossible in the future for loan sharks or other persons to bring suits in the "jackrabbit courts" surrounding Kansas City against persons living in the city proper. It also will prevent the attorney for the county collector bringing tax suits before the country justices against persons living in Kansas City.

FOR STATE FORESTRY BOARD

Bill Drafted to Provide for a Conservation Campaign in Missouri.

Kansas City, Jan. 24.—If the plans of the state board of forestry materialize Missouri will take a place in the front rank of those states that have taken steps to conserve their forests, according to W. E. Barns, secretary of the board.

"A bill, which has been drafted by J. A. Ferguson, formerly professor of forestry at the state college of agriculture, will be presented at the present session of the legislature," he said. "It provides for the granting of land for a state forest preserve, the appointment of a state forester, the appointment of a non-partisan board, of which the dean of the college of agriculture and the state geologist shall be members, and the appropriation of sufficient funds to allow the board to carry on a conservation campaign."

Oppose Negro Segregation.

St. Louis, Jan. 24.—A special committee appointed by the St. Louis Civic league to investigate the housing of negroes protested against the proposed ordinance segregating the negroes of St. Louis. A bill to that effect now is pending in the municipal assembly. The committee, composed of five white men and five negroes, held that the proposed law is unworkable and unconstitutional.

Rain Helps the Ozark Wheat Crop.

Springfield, Mo., Jan. 24.—A heavy rain fell throughout the Ozarks, and the wheat is benefited greatly as a result. Thus far this month there has been a precipitation of three inches, which is a quarter of an inch more than the normal rainfall for January here. It is the first time this winter that the precipitation has at all approached the normal.

EIGHT PERISH UNDER WALLS

Shoppers in Department Store Killed When Building Falls.

WILD RUSH MADE TO STREET

Clerk, Held Fast in Wreckage and Tormented by Fire, Begs for Death. Dies Before Firemen Reach Him. Capitalist Among Victims.

McKinney, Tex., Jan. 24.—Eight persons were killed and fifteen hurt here when the walls of a building occupied by a farming implement firm fell and crashed into a department store, causing that building to collapse. Fire broke out in the ruins.

The dead: Rosa Welch, Miss Katie Milligan, Miss Bessie Wade, Russell Height, N. R. Pressley, Mrs. Mary Stiff, Leslie Bush, Miss Eva Searcy.

The building next to the Odd Fellows' building, two stories of which was used by the Cheeves company, was used by the Cheeves company, was occupied by an implement company. The walls of the implement company gave way first. A sale was on in the three-story department store and men, women and children thronged its counters.

Crowd Rushes to Street.

At the first crackling of timbers, clerks and customers broke for the streets. Pressed outward by the heavy weight of the heavy stock, the wall of the implement store swayed, sagged and burst through into the department store and in an instant hundreds of tons of merchandise and wrecked and shattered building material formed a heap of debris in the department store.

Rescuers at once attacked the ruins. Scarcely had they mounted the heap when flames burst through it. From all over the city came workers and they were formed into relays by Mayor Finch. The fire was extinguished within an hour, but in some cases the flames reached the victims before the rescuers. N. R. Pressley, a clerk, was one of these. He told the firemen that he was waiting on Leslie Bush, an Allen capitalist, when the crash came.

Then Pressley begged, "Kill me or give me a gun so that I can kill myself. I am burning. My right foot is burning off."

A few minutes later when the rescuers reached him Pressley was dead. His right foot was burned to a crisp.

The loss is estimated at $75,000.

RIO GRANDE ISSUES PASSES

Senators Guggenheim and Smoot Given Free Transportation.

Denver, Jan. 24.—In June, 1912, the Denver and Rio Grande railroad issued free transportation to the value of $63,000, or 1¢ per cent of the total passenger revenue of the road for the month, according to the statement of J. B. Andrews, assistant to the vice president of the railroad company, in his testimony before Interstate Commerce Commissioner James S. Harlan.

The names of various persons who had received free transportation were given by Mr. Andrews. They included Senator Simon Guggenheim of Colorado and Senator Reed Smoot of Utah.

"This investigation will not stop with a report," said Commissioner Harlan, "but prosecutions will follow wherever we find there has been a violation of the law."

FAIR TREATMENT IN CANAL

Secretary of State Makes Reply to British Protest on Free Tolls.

Washington, Jan. 24.—Secretary Knox's reply to the British protest against the exemption of American coastwise shipping from Panama canal tolls assures the British government that domestic coastwise trade will not be permitted to extend operations into foreign competitive fields. The reply also gives assurances that increased tolls will not be laid on foreign shipping to balance the remission to American ships. If Great Britain is not satisfied on these points America proposes a special commission of adjustment.

Wilson to Visit Canal.

Trenton, N. J., Jan. 24.—President elect Wilson intends to visit the Panama canal immediately after the extra session of congress adjourns. He told a delegation from Asheville, N. C., who came to offer him a summer home there, that he was not making plans for next summer, because he hoped to spend a part of it in the canal zone and could not guess at how long congress would be in session.

U. S. Troops Fired On by Mexicans.

El Paso, Tex., Jan. 24.—Telephone reports said that Mexican rebels fired on United States troopers of the Thirteenth cavalry patrolling the border near Fabens, Tex. Raiding of ranches by rebels in the same vicinity resulted in a fight with American ranchmen, who drove the raiders over the line, killing one of them.

Pueblo, Colo., Jan. 24.—Homer Blue Richards, who confessed a few days ago that he is wanted in Oklahoma for complicity in six bank robberies, set fire to the city jail, where he is confined. Richards, it is said, has boasted that he will not be taken from jail alive. Richards was badly burned.

DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

NAZIM PASHA SHOT TO DEATH

Turkish People Force Cabinet to Resign.

SHEFKET PASHA GRAND VIZIER

Announcement of Intention to Surrender Adrianople Causes Great Demonstration Before Sublime Porte at Constantinople.

Constantinople, Jan. 24.—Nazim Pasha, the former war minister and commander of the army, was shot dead in demonstrations which preceded the resignation of the cabinet.

Enver Bey and Talat Bey had given explicit orders that no blood should be shed. But Nazim Pasha's aide-de-camp fired from a window of the porte at Enver Bey and his companion and they returned the fire. Their bullets killed Nazim Pasha himself.

The crisis in Turkish affairs came with dramatic suddenness. The grand vizier, Kiamil Pasha, and the Ottoman cabinet resigned, and Mahmoud Shefket Pasha, formerly minister of war and commander of the constitutional army which enthroned Mehmed V. as sultan, was appointed grand vizier. The grand council had pronounced in favor of peace almost at any price. A vast crowd drawn from all classes declared for war rather than peace without Adrianople. And because the crowd was backed by general public opinion, the government surrendered and relinquished office, making way for the same men whom the popular movement brought to the top after the revolutions of 1908 and 1909.

Talat Bey has been appointed minister of the interior, a position he held in a previous cabinet. In a statement after his appointment, he said:

"The change in the cabinet means that we are going to save the national honor or perish in the attempt. We do not want a continuation of the war, but we are determined to keep Adrianople at all costs. That is an indispensable condition of peace."

The resignation of the Turkish cabinet was announced in the following official statement: "The decision of Kiamil Pasha's cabinet, taken in response to the note handed to the Turkish government by the European powers, asking them to abandon the fortress of Adrianople and parts of the islands in the Aegean sea and the convocation of an extraordinary assembly of the grand council of the Ottoman empire, to which the cabinet's decision was submitted—a court contrary to the proscriptions of the constitutional charter and violating the sacred rights of the people, roused the indignation of the Turkish nation with the result that the people made a demonstration before the sublime porte and brought about the resignation of the government."

CASTRO IN A RAGE

Venezuelan Orders Officials From His Room at Ellis Island.

New York, Jan. 24.—General Cipriano Castro, enraged at the refusal of the special board of inquiry at Ellis Island to permit him to enter the country, ordered the three members of the board from his rooms. When they demurred he called his valet and tried to throw them out. They withdrew.

"I will not talk to you! Away!" he shouted, when the officials sought to question him further concerning the killing of General Paradez in Venezuela. The board, its two interpreters and its stenographer, all taking at once, tried to calm the Venezuelan but without avail. He summoned his valet and reached for his gold-headed cane. When the officials withdrew Castro banged the door shut and locked it. The appeal from the board's decision against Castro is now pending in Washington.

Shipping Trust Fixes Rates.

Washington, Jan. 24.—P. A. S Franklin, vice president of the International Mercantile Marine, told the house shipping trust committee that practically all lines to Europe from American ports, from Portland to Galveston, operated under the North Atlantic conference, which agreed upon minimum rates and conditions of service. His corporation, Mr. Franklin testified, controlled more than 1,000,000 tons of ocean ships and operated ships in trade under foreign flags all over the world.

Celebrated Indian Fighter Dies.

San Bernardino, Cal., Jan. 24.—Stewart Wall, who fought a battle almost single-handed against Apache Indians in 1866 and killed thirty braves before he fell with fourteen bullets in his own body, died here. Wall, who was eighty-one years old, came to California in 1851 and was the first town marshal of San Bernardino.

WORLD'S ARMOR POOL IS DESCRIBED

Corey Admits Steel Trust Agreed With Foreign Concerns.

New York, Jan. 24.—The United States Steel corporation and the Bethlehem Steel company participated for four years in an international pool in armor plate, which divided up the business of "neutral markets." William E. Corey, former president of the steel corporation, so testified at the hearings in the government's suit to dissolve the corporation under the Sherman anti-trust law. It was the first direct testimony which the government has been able to obtain as to the existence of such a pool.

Mr. Corey, who resigned as president of the steel corporation in 1910, was unable to recall that the armor plate pool had existed until his memory had been refreshed by the reading of minutes of the Carnegie Steel company quoting him as advising against joining with the "armor combination" in the erection of an armor plate plant in Japan. This was in 1902, shortly after the organization of the steel corporation.

The witness then testified that a combination of armor plate manufacturers in England, France and Germany and the United States had existed as late as "1904 or 1905."

The Carnegie Steel company and the Bethlehem Steel company were the American members of the combination, he said.

The witness testified that during the existence of the agreement the American members had not, to his knowledge, attempted to compete for armor plate either in England, France or Germany.

BROOKLYN TABERNACLE BIBLE STUDY ON THE MARK OF CAIN

Genesis 4:1-15—Jan. 26.

"Whosoever hateth his brother is a murderer."—1 John 3:15.

THE first tragedy of Earth was disobedience to God—the eating of the forbidden fruit. The next generation saw murder resulting from jealousy. Since the Bible teaches that our first parents were perfect, the image of their Creator, the question arises, How could such noble parentage bring forth a son of Cain's evil disposition?

Cain was not degenerate in the present acceptance of that word. Undoubtedly he was a great man in many ways. But he was birth-marked, as all are, with self-ishness. After his parents were expelled from Eden, after they began to toil with sweat of face, Cain was born. The period of his gestation was surely one of much mental distress to his mother. As she murmured respecting the loss of Eden, she marked her child with discontent and selfishness. By the time Abel was born, doubtless our first parents had become reconciled to their fate.

Sacrifices of Abel and Cain.

We are in this not justifying murder, but taking a sympathetic view of the murderer's case, as God did. He condemned the sinner, and arranged for his punishment; but none of His messages to the murderer indicated hatred.

So parents, correcting their children, should allow no sentiment to control their hearts contrary to the best interests of their children. So the laws of men in dealing with crime should be as severe as seems necessary in the interests of society, but should serve be vengeful. They should recognize that mankind were born in sin. The vengeance of the law should be sympathetically enforced, to warn others against evil-doing.

With great satisfaction we note that our prisons are being turned into reformatories. Judges in pronouncing sentence, especially against murderers, are often fatherly and tender. The feeling that terrible responsibility is associated with the taking of human life, even judicially, is right. A certain weakness, however, manifests itself in opposition to capital punishment. This, we believe, results from misunderstanding the Divine Word.

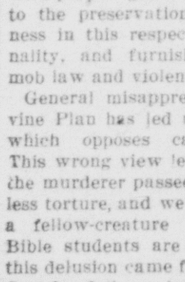
In the case of Cain, God especially prohibited the execution of the criminal. Nevertheless, the Divine Law stands: "Whoso sheddeth man's blood, by man shall his blood be shed." The careful observance of this Law, with a spirit of kindness and sympathy, but with proper ignominy, seems necessary to the preservation of order. Weakness in this respect encourages criminality, and furnishes an excuse for mob law and violence.

General misapprehension of the Divine Plan has led up to the weakness which opposes capital punishment. This wrong view led us to believe that the murderer passed at death into endless torture, and we hesitated to plunge a fellow-creature into such misery. Bible students are now learning that this delusion came from the Dark Ages. Our forefathers, imagining God to be worse than themselves, twisted Scripture to support their errors.

The Bible teaches that mankind fall asleep at death, to awake after Messiah establishes His Kingdom. The Bible statement is that all, good and bad, go to one great slumber-house, the tomb—Sheol, Hades. Messiah so loved the world that He gave His life for the redemption of mankind. As soon as He shall have selected His Church, He will establish His glorious Kingdom, open the prison doors, set at liberty the captives of death, and bring all to an accurate knowledge of the Truth.

"Sin Croucheth at the Door."

Cain was jealous because God manifested favor toward Abel's offering, while rejecting his own. Cain should have rejoiced with Abel, and brought a similar offering. God warned him that his spirit of selfishness was sin, crouching at the door of his heart, and advised him to conquer this beastly spirit. Cain heeded not the warning.



Murder through jealousy.

Abel's blood cried, figuratively, to Divine Justice. All injustice cries out to God. Sooner or later, the Divine penalty will be meted out. But the judgments of the Lord are left for the Great Mediator to execute during the Millennium, the world's Judgment Day. Only those begotten of the Holy Spirit are now on trial for life or death eternal.

Brother-Haters Are Murderers.

The Great Teacher declares that brother-haters are murderers in God's sight. In other words, a spirit of hatred is a spirit of murder. Alas, how many of the professed followers of Jesus harbor a spirit of hatred, and sometimes manifest it in anger and other works of the flesh and the devil!

Christians are to fight against the imperfections of the flesh. They must strive against the fallen nature, and cultivate the fruits and graces of the Holy Spirit. If they manifest the murder spirit, they will lose the "prize" of joint-heirship with Christ.

PAPE'S DIAPEPSIN ENDS INDIGESTION.

Time It! No Sour, Gassy Stomach or Dyspepsia in Five Minutes.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, or gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Advertisement.

Burial at Oak Hill.

The funeral services for Mrs. Sam Alexander, who died at her home in St. Joseph Wednesday, were held Friday afternoon at the home of her daughter, Mrs. Loren Smith, on East Third street. The services were conducted by Rev. S. D. Harkness of the Presbyterian church. Burial took place in Oak Hill cemetery, four miles east of Maryville.

HUNDRED YEAR CLUB.

Believe Life May Be Prolonged.

Men who are devoting their lives to the study of longevity believe that in days to come a man of ninety will be in his prime, and old age will begin long past a hundred years.

Scientists have proved that the simple life, temperate habits, exercise, and an active mind are essential to a long and happy life.

When the blood gets thin and sluggish and creeps lazily through the veins, and the arteries begin to harden, there is nothing that will enrich the blood, improve the circulation and restore strength in the body so quickly as our delicious cod liver and iron tonic Vinol. Here is proof.

Mrs. Michael Bloom of Lewiston, Pa., at 83 years of age, was so weak she had to be wheeled around in an invalid's chair—she writes that after taking a few bottle of Vinol she could take long walks and do her housework. That shows how Vinol strengthens old people.

Try Vinol on our guarantee that it will do you good or cost you nothing. Orear-Henry Drug Co., Maryville, Mo. —Advertisement.
